## Friends of Kairos Nicaragua, Inc. Mission Statement

Friends of Kairos Nicaragua, Inc. (The Corporation) works in the United States and Nicaragua, to create common interest communities focused on community development, to foster peace and justice in the Americas.

Friends of Kairos Nicaragua is born to contribute to the building of a world of justice and love. By gathering peoples in their local communities, in the community and culture of another, or at the Centro Kairós/Kairos Center in Managua, Nicaragua, we use pedagogies based on participatory education, believing that we are all teachers, all students, all gifted with tools that are necessary for creating a just and loving world.

Friends of Kairos Nicaragua, Inc. is open to people, communities, collectives, institutions, churches and other groups, without making distinctions for reasons of color, economic class, age, ethnic, religious, political or sexual identity—simply stated, the only requirements to participate are desire, openness and commitment to be a part of the process, to dream and build together.
